

Repair vs. Replacement Cost Analysis

This applies to replacement of assemblies such as engines, transmissions, starters, alternators, steering racks, p/s pumps, calipers and any other component that can be overhauled.

Name of Assembly _____ RO# _____ Tech # _____

Overhaul Information

Part Name	Part Number	Quantity	Cost
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
Total parts from reverse side		_____	_____
Total cost of parts		_____	_____

Labor Operations Required to Complete the Overhaul

Operation No.	Labor Time	Cost
_____	_____	_____
_____	_____	_____
_____	_____	_____
Total Labor Amount		\$ _____

Replacement of Assembly

Part Name	Part Number	Quantity	Cost
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
Total cost of Parts		_____	\$ _____

Labor Operations required to complete the replacement

Operation No.	Labor Time	Cost
_____	_____	_____
_____	_____	_____
_____	_____	_____
Total Labor Amount		\$ _____

Cost Analysis

Overhaul Cost \$ _____ Assembly Replacement Cost \$ _____

Authorized Signature for Assembly Replacement _____

NOTE: When it is necessary to take an assembly apart and put it back together again after determining it cannot be repaired, labor is reimbursable when listed on the claim with the replaced assembly. Time clocking is required for claiming Actual Time.
